FOR IMMEDIATE RELEASE

Sioux Falls Airshow – F-22 Raptor Announces Appearance

SIOUX FALLS, S.D. - The list of impressive military aircraft for this year's Sioux Falls Airshow just got a lot bigger. The United States Air Force F-22 Raptor Demonstration Team has confirmed their inclusion in an already inspiring line-up for the two day event being held July 25th & 26th at Joe Foss Field.

The F-22 Demonstration Team performs precision aerial maneuvers to demonstrate the unique capabilities of the world's only operational fifth-generation fighter aircraft. Team members also exhibit the professional qualities the Air Force develops in the people who fly, maintain and support these aircraft. For more information on the F-22 and the demonstration team visit their website at <http://www.acc.af.mil/aerialevents/f22a/index.asp>

The F-22 will join the already announced Navy Blue Angels as well as numerous other military and civilian aircraft for this FREE two day event. Visit the Sioux Falls Airshow website at www.siouxfallsairshow.com for all the details.
